To Whom It May Concern:

It is a distinct pleasure to recommend the IT and Marketing service of Intimex to you. In my capacity as Operation Manager at Baby Dance I worked closely with Intimex's team including Jeff, Marketing Officer, and Regina, Customer Service Officer, on numerous website setup tasks and marketing campaigns. Their services, quality and creativity are topnotch and we have been very pleased with the work they've done for us.

By far the biggest marketing campaign they worked on for us was the launching of our new business, Baby Dance. Not only to Intimex creative team to design all the related advertising materials including company logo, posters, brochures, and catalogue, but also their technical and client support team put a tremendous effort to develop a comprehensive and multi-purpose web system, PTX and CMS, during the start of our business. By using their service we received more than double the return rate with evidences and our company, therefore, trusted Intimex over an amount worth of advertising and web system development and we were thrilled with the results.

I wholeheartedly recommend Intimex to any company that needs a well developed and organized website and wish them the very best in all future endeavors. Intimex would be a tremendous asset in any company.

Yours faithfully,

Cathy Lin  
Operation Manager  
Baby Dance
